Between the main entrance of upcoming concert house and hotel Gambino, Mariss Janson's square is located – a busy and popular area surrounded by UMADUM Ferris wheel and gastronomic businesses.

Because of its well-attended central position in Werksviertel-Mitte, this 400 m² large square is ideal for roadshows, promotions or product presentations.

location plan

Werkviertel-Mitte is located directly between Haidhausen and Berg am Laim in Munich East. Thanks to its neighbor of Munich East Station the site is optimally connected with regional and national Transportations.

Only three stations to the central Munich and first-class connection to the downtown as well as to highways offer us time-saving comfort.

Same applies to short routes to industrial fairs and Munich airport.
